**Campaign Spending:** [List of Filers](#)

EDUCATION is the most important outside influence for any student. As a BOE member, I would promote a concerted effort to release the appropriated funds for additional classrooms. Teachers are blocked when they face over crowded classrooms. The student to teacher ratio needs to decrease for optimum learning opportunity.

Higher education also needs to be addressed. There are drastic needs in both the Windward and Leeward districts. The University of Hawaii-West Oahu is long over due and each year that ground breaking is stalled, the cost of the campus continue to climb.

The BOE needs to promote the building of new schools in the rapidly growing population areas. When the developers donate the land to the state, this land needs the funds to build the schools. The impact fees paid by the developers for schools need a designated fund to protect these funds for the much needed schools. Improved uses of these funds are essential to the improvement of opportunities of our students to learn.

Our students need smaller class sizes, more teachers for the additional classrooms. These are paid for by the property taxes and the impact fees paid by the developers. To do less, is unfair to the students, their future, the teachers and ours as well.

My motto: "The more people believed in justice, equality would be reality." This motto will guide my service when elected to the Board of Education, member at Large.

I ask for your vote and your support. Mahalo.
